## steel leaves

Lightweight. Durable. Different. It's everything you've always wanted from your jewelry.

Every element in the collection is hand-formed and welded from steel wire and then given a soft, matte black finish that pops no matter what you're wearing. Throw in accents of sterling silver and you've got jewelry that's sure to make a statement, but durable enough to wear every day for years to come.

about megan auman

megan auman is a design company dedicated to helping you make a statement every day.

While taking a jewelry class in high school, Megan's first thought was "You can go to college for this?!?" Megan studied jewelry and metalsmithing at Syracuse University, where she developed a taste for dramatic, statement making jewelry. While earning her MFA from Kent State, Megan launched her first line of jewelry made from welded steel wire in her signature modern, graphic, organic designs.

Her unique design voice and years of experience as a maker allow her to create accessories that are sure to make a statement but easy enough to wear every day.

megan auman collections have included jewelry, home décor, and the cozy/cuff – a bracelet that doubles as a reusable coffee cup cozy.

megan auman jewelry and accessories are available online at meganauman.com and in stores across the US.

Megan designs and creates from her home and studio in Jonestown, Pennsylvania.
